Oldies But Goodies Cocker Rescue (OBG) evaluates all applicants on a case by case basis and does not guarantee that all prospective adopters will be approved. We reserve the right to choose the adoptive families we feel are most suited to our dogs' needs at the time of application. In addition, OBG reserves the right to redirect applicants to a dog that better fits their lifestyle in order to have a successful adoption. Disapproval simply means that OBG does not feel it has the right cocker for the applicant at the present time; it is not a reflection on the applicant's character. If concerns present themselves at any time during the adoption process, OBG also reserves the right to reevaluate your application.

IMPORTANT INFORMATION:

These cocker spaniels are in an animal rescue group because, for one reason or another, their previous owners could no longer care for them. The main purpose of this organization is to find responsible and committed homes for all cockers placed in our care. Adopting a dog is a very important decision and one that affects not only you and your family, but the dog you decide to adopt, who is a thinking, feeling creature. Millions of dogs are euthanized every year because people do not take seriously the maintenance and care of animals. The care and maintenance of a cocker spaniel can be especially costly. Time and attention are also major factors that need to be considered.

All cockers in our care have been taken to the vet for an examination, received basic shots, and have been spayed/neutered (unless medically unable). All cockers are in good health upon adoption, unless there are extenuating medical factors which will be noted on the contract at signing. It is the responsibility of the new owner to provide routine vetting, shots and preventative care (such as teeth cleaning, heartworm and flea preventative etc) throughout the lifetime of the dog.

The adoption fee is used to provide medical care, food, shelter, and publicity for the cockers. The fee must be paid upon signing the contract. **If, for any reason, you can no longer provide care to the dog you adopt, it must be returned to Oldies But Goodies Cocker Rescue, Inc. The adoption fee is non-refundable.**

The average cocker spaniel has a life span of 12 to 15 years. Are you willing to make a commitment to this dog for the rest of its life? Are you willing to provide the necessary love and attention as well as the necessary food, vet care, and grooming required to maintain a happy and healthy cocker spaniel? ___ Yes. ___ No.

It is extremely important that once a dog is placed in a new home that it remains there and that all parties involved are satisfied. OBG is looking for COMMITTED FAMILIES ONLY. If you have any questions or concerns about adopting a cocker it is imperative that you finalize them before adopting.

Please sign below to confirm that you have read the above information and that you understand it, and that the information you have supplied on this application is accurate. **If you have any questions regarding the care and maintenance of a cocker spaniel please let the organization know. We will be more than happy to help with any questions you may have.**
